Pneumatic and Cushion LPG Forklift Trucks

G35/40/45S-5, G50/55C-5

G40/45/50/55SC-5

GC35/40/45S-5, GC50/55C-5

3,500kg to 5,500kg Capacity

PRO5
SERIES

**Field proven and endurance tested...
To give you the best forklift value on
the market.**

DRIVE THE DIFFERENCE...

That's what Doosan has put into the design, development and production of the G/GC45S-5 series, to provide customers with:

- ✓ *Optimized operator comfort & safety*
- ✓ *Proven and durable components*
- ✓ *High powered and fuel efficient diesel and LPG engines for high performance, including Low emissions and minimal vibration*
- ✓ *Enhanced maintenance and serviceability*
- ✓ *Virtually maintenance-free Oil Cooled Disc Brakes (ODB)*
- ✓ *2-speed powershift transmission*
- ✓ *Lift and tilt locking hydraulic control valve*
- ✓ *Operator Sensing System (OSS)*
- ✓ *A variety of operator friendly features*

DRIVE DOOSAN !

**Operator Comfort and Driver Efficiency
are Doosan's Top Priorities**

DRIVE THE DIFFERENCE...

Doosan forklifts are designed to keep your operations running at peak efficiency. Enhanced comfort features ensures that operators don't experience fatigue or strain during everyday operations.

Designed to be simple, and easily adjustable, this operator compartment will make your driver feel right at home.

● **High visibility overhead guard and front-end**

The wider mast window, repositioned hydraulic hoses and flat bar style overhead guard optimizes operator sight lines forward, up and to the load.

● **Integrated instrument panel**

The centralized and easy-to-read instrument panel maximizes operator efficiency. The fuel gauge, engine hour meter, engine oil pressure, coolant and transmission temperature, mast interlock, transmission neutral, seat belt, brake oil level indicator keep the operator ever aware of the vehicle performance.

● **Convenience tray**

Easy to store refreshments, paperwork, small tools, etc. for optimal operator efficiency.

● **Auto tilt leveling (optional)**

Easily returns the mast to an upright vertical position with the simple push of a button.

● **Deluxe suspension seat with Operator Sensing System (OSS)**

A comfortable deluxe suspension seat with an Operator Sensing System (OSS), a large seatback angle, longer seat travel length and operator's weight resistance on front side allow multiple adjustments for optimal seating comfort.

- ✓ Parking alarm
- ✓ Seat belt indicator
- ✓ Neutral shift feature

● **Spacious Operator compartment**

Wide open operator leg room, stepless tiltable steering column and ergonomically located operator pedals with a low cowl height facilitate ease of operation.

● **Optimum Pedal System (OPS)**

This Optimum Pedal System will reduce the operators fatigue and provide best sense of drivability. Especially, the new electronic accelerator will provide the operator with secure and exact speed control.

DRIVE DOOSAN !

Minimized Maintenance, Easy Serviceability.

- Toolless Side Cover and Floor Plate facilitates Serviceability

- Integration of Electrical Components for Easy Maintenance

Fuse and relay box located in front of the engine simplifies servicing

DRIVE THE DIFFERENCE...

Doosan's goal is to make your material handling organization as efficient and reliable as possible, by maximizing uptime to reduce overall maintenance costs.

● **Oil- Cooled Disc Brakes (ODB)**

Oil cooled disc brakes are available as an option on all G(C)45S-5 series pneumatic and cushion forklifts and are especially recommended for applications in humid, abrasive or corrosive environments, or with ramp, loading and unloading applications. This enclosed brake system eliminates outside contamination, significantly extending brake life and decreasing maintenance costs. Oil cooled disc brakes have service intervals 5 times longer than conventional shoe brakes, and require little to no maintenance.

● **Power reversal transmission**

Top mounted control valve on the transmission precisely modulates clutch oil pressure for smooth forward / reverse directional changes, permitting on-the-go shifting up to 5mph.

● **Hydrostatic steering system**

- No mechanical connections between steering wheel and steer axle for reduced maintenance.
- Easy Access grease fittings for proper lubrication.
- Sealed tapered roller bearings offer protection against contamination and in high impact applications.
- Provides low effort steering with quick steering response.

● **Air cleaner**

A large capacity, dual element air cleaner permits long service intervals. The primary filter can be washed and re-used up to 5 times.

A high air intake on the overhead guard is standard, and aids in drawing clean, cool air into the engine intake system.

● **Full floating drive axle**

The strong one-piece cast housing keeps axle components aligned. High tensile strength alloy steel axle shafts extends axle life while splined side gear & drive wheel hub gears transmit high torque to the drive wheels.

DRIVE DOOSAN !

**A hallmark of Durability
and Reliability**

DRIVE THE DIFFERENCE...

High powered and fuel - efficient LPG engines provide high performance levels and ensure long term power efficiency.

● **PSI 4.3L (70kW)**

Superior engine performance is driven by an ECU that intergrates and coordinates all critical functions including: governor, variable ignition timing, air-fuel ratio control and engine protection.

- Reduced fuel consumption : By using roller valve lifters for reduced friction and improved fuel economy
- Increased durability : Modular iron crankshaft has undercut & rolled fillets
- Less vibration and low noise : Counter-rotating balance shaft / Composite rocker arm cover and front cover
- High Voltage Switch (HVS) ignition distributor and coil standard
- Cast aluminum oil pan for increased strength & noise reduction
- Certi or non-certi available

DRIVE DOOSAN !

**Proven Quality,
Responsive Service and
A Reliable Partner....**

The aftersales service of Doosan forklifts is available from your authorized local dealers backed by Doosan's own customer service center. And Doosan provides 100% parts inventory to ensure any downtime is minimized. When you own a Doosan forklift, our high quality, responsive customer support team comes with it.

The Doosan network starts with your local dealer and ends with a national team of highly qualified and experienced personnel standing ready to support all your material handling needs.
